

## **welcome to LIAM MAGUIRE'S**

***Our menu has evolved based on the valued feedback provided by the best consultant on the planet - you, our customer.***

***Our approach is a contrarian one. The restaurant industry has been rapidly moving towards pre-packaged menu items. The purpose is simple and understandable. It is to reduce food and labour costs.***

***In our opinion, based on customer feedback and despite some high quality pre-packaged items, nothing can beat the quality of a freshly prepared meal. The added waste generated by all that packaging isn't doing our environment any favours either!***

***Our goal is to provide, wherever possible, menu items which are prepared completely "in house".***

***Only you will continue to be the judge as to whether we are on the right track. Your opinion is critically important to us. Please don't hesitate to pass on your views so we can always provide you with a dining experience you will want to repeat time and time again.***

***We are well aware that you have choices. Thank you for making Liam's your choice today.***

***Jennifer Mercier  
Owner and General Manager***
